**European Law**

The main aim of this module is to enable students to describe and analyse the main course contents allowing them to discuss connections between the different topics in the field of EU law. Students will be able to summarise the most important decisions of the European Court of Justice, especially from a cohesive perspective and should also be able to legislate exemplary texts about relevant topics. This module will enable students to critically appreciate the common legislative and political aspects of the EU and to analyse future developments in the historical dimension.
